Report Of Independent Auditors

Commissioners

**Midwest Interstate Low-Level Radioactive Waste Compact Commission
Madison, WI**

We have audited the accompanying statement of financial position of Midwest Interstate Low-Level Radioactive Waste Compact Commission as of June 30, 1998 and the related statements of activities and cash flows for the year then ended. These financial statements are the responsibility of the Commission's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Midwest Interstate Low-Level Radioactive Compact Commission as of June 30, 1998, and the changes in its net assets and its cash flows for the year then ended, in conformity with generally accepted accounting principles.
